

CMMC Level 2 IT Support for Government Contractors

SECURE, COMPLIANT, AND RELIABLE IT SOLUTIONS

As a **Managed IT Services Provider (MSP)** specializing in **CMMC Level 1 & 2 compliance**, we provide **government contractors** with tailored **cybersecurity and IT support solutions** that meet stringent **DoD** regulatory requirements. Our expertise ensures your business is equipped with the right tools and security frameworks to protect **Controlled Unclassified Information (CUI)** while maintaining operational efficiency.

Why CMMC Level 2 Compliance Matters

CMMC (Cybersecurity Maturity Model Certification) is a **mandatory** framework for defense contractors handling CUI. Level 2 compliance aligns with **NIST SP 800-171** standards and requires companies to implement 110 security controls across multiple domains. Achieving compliance is crucial to securing new **DoD contracts** and avoiding penalties.

Our CMMC Level 2 IT Services

We offer end-to-end IT solutions designed to help government contractors meet and maintain CMMC Level 2 certification:

1. CMMC Gap Analysis & Readiness Assessment

- Comprehensive evaluation of your current IT security posture.
- Identification of gaps in **NIST SP 800-171 compliance**.
- Strategic roadmap for achieving CMMC Level 2 certification.

2. Secure IT Infrastructure & Implementation

- Deployment of **Zero Trust Architecture**.
- Endpoint security, data encryption, and **Multi-Factor Authentication (MFA)**.
- Secure cloud solutions meeting **FedRAMP and DFARS requirements**.

3. Managed Security & Continuous Monitoring

- 24/7 security monitoring and **Security Information & Event Management (SIEM)**.
- Proactive threat detection and incident response.
- **Managed Detection & Response (MDR)** to mitigate cyber threats.

4. Compliance Documentation & Audit Support

- Assistance with **System Security Plans (SSP)** and **Plan of Actions & Milestones (POA&M)**.
- Continuous compliance tracking and audit readiness.
- Support for third-party CMMC assessments.

5. Employee Training & Security Awareness

- Tailored **cybersecurity training programs** to prevent human error.
- Phishing simulations and compliance workshops.
- Best practices for secure handling of CUI.
